EDDIE RODNEY

Batman and Psychology Popular Culture Psychology

Batman has been one of the world's most beloved superheroes since his first appearance in Detective Comics #27 in 1939. Clad in his dark cowl and cape, he has captured the imagination of millions with his single-minded mission to create a better world for the people of Gotham City by fighting crime, making use of expert detective skills, high-tech crime-fighting gadgets, and an extensive network of sidekicks and partners. But why has this self-made hero enjoyed such enduring popularity? And why are his choices so often the subject of intense debate among his fans and philosophers alike? *Batman and Ethics* goes behind the mask to shed new light on the complexities and contradictions of the Dark Knight's moral code. From the logic behind his aversion to killing to the moral status of vigilantism and his use of torture in pursuit of justice (or perhaps revenge), Batman's ethical precepts are compelling but often inconsistent and controversial. Philosopher and pop culture expert Mark D. White uses the tools of moral philosophy to track Batman's most striking ethical dilemmas and decisions across his most prominent storylines from the early 1970s through the launch of the New 52, and suggests how understanding the mercurial moral character of the caped crusader might help us reconcile our own. A thought-provoking and entertaining journey through four decades of Batman's struggles and triumphs in time for the franchise's 80th anniversary, *Batman and Ethics* is a perfect gateway into the complex questions of moral philosophy through a focused character study of this most famous of fictional superheroes.

New Edition DC Comics

Bruce Wayne's mission as the Batman has only been underway for a year or so, but he can tell he's making a difference. Unfortunately, he's made some powerful enemies. All the traditional power brokers of Gotham resent the disruption the Batman has brought to town...and it seems one of them has a plan to neutralize him. There's a second Batman haunting Gotham's rooftops and alleys-and this one has no qualms about murdering criminals, live and on tape. With the entire might of the Gotham City Police Department and Gotham's rich and powerful coming down on his head, Batman must find this imposter and somehow clear his name...but how can you prove your innocence from behind a mask? Director and screenwriter Mattson Tomlin (Project Power, Little Fish) has teamed up with Eisner-winning suspense and horror artist Andrea Sorrentino (Joker: Killer Smile, Gideon Falls) to create a wholly new version of Gotham City, informed by grim reality, where every punch leaves a broken bone and every action has consequences far, far beyond Batman's imagination!

Psych of the Living Dead Sterling

Concentrating primarily on contemporary depictions of Batman in the comic books, this book analyzes why Batman is so immensely popular right now in America and globally, and how the fictional Dark Knight reveals both new cultural concerns and longstanding beliefs about American values. The organizing premise is that while Batman is perceived as a very clearly defined character, he is open to a wide range of interpretations and depictions in the comics (what Henry Jenkins refers to as "multiplicities"), each of which allows access to different cultural issues. The idea of Batman functions as an anchoring point out of which multiple Batmen, or Batman-like characters, can occupy different positions: Grim Batman, Gay Batman, Female Batman, Black Batman, Cute Batman, and so on. Each iteration opens up a discussion of different cultural issues pertinent to modern society, such as sexuality, ethnicity, feminism and familial relationships.

Soul of the Dark Knight DC Comics

In a dark dystopian future, Gotham City has descended into lawlessness in the ten years since the Dark Knight retired. When his city cries out for help, Batman returns to save the city he had dedicated his life to protecting. Joined by Carrie Kelly, a teenaged female Robin, Batman takes to the streets to end the threat of the mutant gangs that have overrun the city. And after facing off against his two greatest enemies, the Joker and Two-Face, for the final time, Batman finds himself in mortal combat with his former ally, Superman, in a battle that only one of them will survive. Frank Miller's THE DARK KNIGHT RETURNS and THE DARK KNIGHT STRIKES AGAIN are considered two of the most influential superhero graphic novels of all time, cementing Miller's status as one of his generation's greatest graphic storytellers. Collected here are both parts of Miller's DARK KNIGHT saga, including THE DARK KNIGHT RETURNS #1-4, THE DARK KNIGHT STRIKES AGAIN #1-3, with additional character sketch and script pages.

An Unauthorized Clinical Look Under the Mask of the Caped Crusader Dc Comics

The next entry in Sterling's pop culture psychology series features 20 essays and an exclusive interview with Rod Roddenberry son of "Star Trek" creator Gene Roddenberry. In a fun and accessible way, "Star Trek Psychology" delves deep into the psyches of the show's well-known and loved characters. The trailblazing franchise spans five TV series, 13 films, and countless novelizations. "Star Trek Psychology" uses academic and scientific theories to analyze and answer such questions as "Why do 'Trek's' aliens look so human?" and "How can the starship's holodeck be used for therapy?" This compilation examines alien neurobiology, discusses identity formation for shape shifters, explores the importance of emotion for artificial intelligence, and much more."

Star Trek Psychology Chartwell Books

Batman dresses in costume, spends a good part of his wealth to support the lifestyle of his bat-alter ego, and puts his life on the line nightly. There must be something wrong with him, right? This question is that heart of "What's the Matter With Batman?" Clinical psychologist and Abnormal Psychology author Robin Rosenberg delves into the mind of Batman. She examines his problems, "issues," and possible symptoms to determine whether he suffers from any of a variety of psychiatric disorders such as depression, posttraumatic stress disorder, obsessive-compulsive disorder, antisocial personality disorder, and others. Dr. Rosenberg also addresses why he trains minors to be sidekicks in his dangerous profession, as well as his disappointing love-life. Dr. Rosenberg is uniquely qualified to examine Batman in this light; she writes college-level psychology textbooks and writes extensively about psychology and superheroes. She is series editor of the Superhero series with Oxford University Press and has been featured discussing psychology and superheroes in various media including The Discovery Channel, The History Channel, the Financial Times, National Public Radio, Pacific Standard magazine, the Boston Phoenix and the documentary "Superheroes."

The Psychology of Superheroes Dark Horse Comics

For years, Bruce Wayne has built up the legend of Batman, Gotham's Dark Knight. But sometimes, a

legend will write itself. Sometimes, a memory long suppressed pushes to the surface in the most painful of ways, forcing a hero to question right, wrong, and all they thought they knew of humanity. Long-time adversaries like Clayface, Element King, and Two-Face can still find new ways to push the Dark Knight to untested limits. Sometimes, the darkness itself births the legend. It's tales like these from the creative minds of JOSHUA WILLIAMSON, WES CRAIG, CHARLES SOULE, DENNIS CALERO, FRANK HANNAH, MARCO TURINI, DEXTER SOY, JASON SHAWN ALEXANDER, SHANE DAVIS, BRANDON MONTCLARE, JIM KRUEGER, MIKE W. BARR, and many more that give new breadth to the Bat in BATMAN: LEGENDS OF THE DARK KNIGHT VOL. 4 (collects 100-PAGE SUPER SPECTACULAR #2-3).

Dark Knight McFarland

Westworld Psychology Wiley

In the early days 20th century the emerging medium of comics was beginning to grab the attention of children and adults alike. Then, in the 1930s, superheroes revolutionised the entire industry and culture as we know it. Gotham's caped crusader, The Batman, swung into this pantheon of demi-gods in 1939 and secured his place as one of the world's most beloved characters. But do know who created The Dark Knight? Do you know how artist Bob Kane, placed himself at the secret origins of Batman while his co-creator Bill Finger was forced into the shadows? Do you know how comic creators, journalists, and family members fought to have Finger credited for his work? The first prose book to focus both on Finger and Kane, as well as cast of supporting characters from one of the most exciting times in comic book history, *The Creators of Batman: Bob, Bill and The Dark Knight* gathers everything we know about these two monumental figures and lays their stories side by side. Bringing together the story of these two creators against the exciting background of the American comic's boom and Batman's Golden Age. It looks at how Finger and Kane constructed the world of Gotham and its denizens, and grapples with the legacy the creators left behind.

The Ultimate Guide to the Dark Knight McFarland

"The Walking Dead" depicts a postapocalyptic world filled with relentless violence and death. How would such trauma affect the psyche? Nineteen fascinating essays explore the deep psychological forces that drive the show's action, from the costs of killing and survivor guilt to the consequences of nonstop stress and the struggle to find meaning in tragedy. "The Walking Dead Psychology" helps fans better grasp this compelling fictional universe.

The Possibility of a Superhero Createspace Independent Publishing Platform

Beginning a whole new chapter in the life of the Dark Knight, the epic art team of Tony S. Daniel and Danny Miki are joined by new series writer James Tynion IV! It's a new day in Gotham. Bane has been vanquished, but both the city and its champion are still struggling to pick up the pieces. Deathstroke, the world's greatest mercenary, is back in town under a new contract. Soon other hired killers follow, and Batman is surrounded by assassins--as well as Gotham's own dangerous players, from the Riddler to the Penguin to Harley Quinn. As the Caped Crusader draws closer to uncovering the figure pulling the strings, the love of his life, Catwoman, holds the sinister secret in her claws. Can Batman pry it from her without tearing their relationship apart? And will it be enough to stop the coming plot against him? The start of a bold new chapter in the Batman saga unfolds from writer JAMES TYNION IV and artists GUILLEM MARCH, TONY S. DANIEL, CARLO PAGULAYAN, JORGE JIMENEZ, and more. Collects stories from *Batman* #85-94 and *Batman Secret Files* #3, and features the debut of breakout character Punchline!

Batman DC Comics

From his first comic-book appearance in 1939 through his many incarnations on the big screen, the archetypal superhero known as The Batman has never been far from the American consciousness. The character shaped the way we read comics and graphic novels, view motion pictures, and analyze the motifs of the Hero, the Anti-Hero and the Villain. He has also captured the scholarly imagination, telling us much about our society and ourselves. These essays examine how Batman is both the canvas on which our cultural identity is painted, and the Eternal Other that informs our own journeys of understanding. Questions relating to a wide range of disciplines--philosophy, literature, psychology, pop culture, and more--are thoroughly and entertainingly explored, in a manner that will appeal both to scholars and to fans of the Caped Crusader alike.

Batman BenBella Books

Since he first fought Batman in 1940, The Joker has evolved into one of pop culture's most complex, chaotic, and confounding psychological creations. In *The Joker Psychology*, Dr. Travis Langley, author of the bestselling *Batman and Psychology*, explores the twisted psyche of this great supervillain, as well as the personalities who are inexorably drawn to it. Through 15 chapters, including special interviews with the people who have brought the Joker and Harley to life in comics and onscreen, this collection analyzes: Why a bright, laughing monster who looks like a clown could be the ultimate antagonist to a grim, brooding hero who looks like a monster. The relationship

between a therapist and her patient--and what happens when a therapist crosses the line, as Harley Quinn does when she falls for The Joker. How a smart person could fall for the most dangerous of criminals. Why so many fans find Harley Quinn inspirational. How different kinds of therapy could (or could not) help twisted minds like Mister J and Harley Quinn. The development of a fictional character that so completely embodies psychopathy (including interviews with creators who have shaped The Joker's character over the years).

Batman and Psychology John Wiley & Sons

A fun foray of escapism grounded in sound science, *Becoming Batman* provides the background for attaining the realizable—though extreme—level of human performance that would allow you to be a superhero.

Batman and Ethics Dk Pub

A young mother and her daughter appear on Bruce Wayne's doorstep, and the famously wealthy playboy is rocked by the news that they bring. When the child is suddenly kidnapped by The Joker,

Batman must plunge deep into Gotham City's underworld to track her down and foil the Clown Prince of Crime's twisted plan. But what is the secret that connects these archetypal antagonists to this mysterious young girl, and why does her case seem so deeply personal to both of them? Acclaimed European comics creator Enrico Marini (*The Eagles of Rome*, *The Scorpion*, *Gipsy*) made his American comics debut with this stunning graphic novel showcasing his unique interpretations of Gotham City's most famous heroes and villains. Collecting the lushly painted two-volume original series, this new trade paperback edition collects *Batman: The Dark Prince Charming #1-2*.

Batman Titan Publishing Company

This latest installment in the *Psychology of Popular Culture* series turns its focus to superheroes. Superheroes have survived and fascinated for more than 70 years in no small part due to their psychological depth. In *The Psychology of Superheroes*, almost two dozen psychologists get into the heads of today's most popular and intriguing superheroes. Why do superheroes choose to be superheroes? Where does Spider-Man's altruism come from, and what does it mean? Why is there so much prejudice against the X-Men, and how could they have responded to it, other than the way they did? Why are super-villains so aggressive? *The Psychology of Superheroes* answers these questions, exploring the inner workings our heroes usually only share with their therapists.
